

**NOTE: If you are the team rep for multiple teams, please [confirm BOTH teams' statuses](#) as some clubs had multiple teams with different statuses.**

Good Afternoon,

If you are receiving this email your team has been placed on the [waitlist](#) for the 2024 NCVF Championships. We understand that all of you want to be at the event, but after averaging an increase of around 15 teams a year for a decade+, we have had over 160 more teams register in the past two years and despite expanding the tournament by 65 teams over that time, we simply do not have the courts/space in the facility to meet the current demand this year.

The waitlist order has been [published](#). We fully expect to have several drops each year, but **we have absolutely no way of knowing if or when drops will happen**. We have already accepted a few waitlist teams this week, we expect there will be more drops, but they can happen anytime between now and the start of the tournament (a few years ago we had a waitlist team fly to the tournament and find out at midnight when a team did not show up that they would be accepted and playing at 8am). We will keep the waitlist fully updated if/when we receive drops so you will always know where you stand (if you email us asking about where you are on the waitlist, we will just direct you back to this page). IF you want to withdraw and receive a refund now, just let me know and I will take care of it now. Otherwise, all waitlist refunds will be processed the week after the tournament.

We will reach out to you individually if/when we can accept you off the waitlist, and will keep you all updated if anything changes.
